

Directions on downloading your photos from the Client Site.

Once your photos are ready for download, you will receive an email with your password.

Included in that email will be a series of links.

One link will be to the full size slideshow. I always suggest looking at this first so you can see, in a quick and easy fashion, the collection I have created for you. It has no music. Music can only be added by the system once the gallery is made public.

You will get five links to:

- The High Resolution full-screen slideshow.
- The Group Folder. – This folder contains the three download galleries:
 - The MLS 640x480 Images gallery
 - The High Resolution Color images gallery
 - The High Resolution Black and White images gallery

When you first go to a link, it will require a password. That password is provided in the email in bold and in quotes. The password is just the bold characters not including the quotes.

For example, to download the 640x480 versions go to the MLS 640x480 link in your email. Click on any picture. A small circle will appear on the lower left. Click in the circle to create a check mark. This will SELECT that image.

Once the image is checked, a download button will appear just above the pictures. On the upper left you may select ALL and then click the download button. It will download the entire gallery at once into a zip file on your computer.

If you only want to download selected images, you can select only those and download them in the same manner.

The same method applies to the high-resolution photos as well.

Please call me if you have any trouble with downloading the images. I will be happy to walk you through the process.

Please remember, if you would like the FREE embeddable slideshow with music for your website, please be sure to download and return the [Gallery Authorization Form](#) from our Checklists and Downloads section of our site (see bottom of page menu).

If you would like this slideshow hosted by The Style Counsel with a link from your site, we can easily arrange that. It only costs \$0.99 per month*. ** See site for details.*

We hope you are happy with the photographs. Our business is based on customer satisfaction. If you are not satisfied for some reason, please contact us immediately. We will do our best to make it right and earn your repeat business. We also welcome suggestions and feedback of all types.

Thank you for your business.
